**ABBREVIATION REFERENCE:** AIR – American Indian Reservation; Trust Land – Off-Reservation Trust Land; TJSA – Tribal Jurisdiction Statistical Area; TDSA – Tribal Designated Statistical Area; ANVSA – Alaska Native Village Statistical Area; ANRC – Alaska Native Regional Corporation; CCD – Census Civil Division; CDP – Census Designated Place; BNA – Block Numbering Area

**FEATURES**

Highway	Pipe/Power Line	Stream/Shareline
Secondary Road	Ridge/Physical Feature	Intermittent Stream
Lease Trail/Waterway/Canal	Property/Fence Line	River
Railroad	Navigable Boundary	Lake
		Glacier
	Inset	Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol only for the highest boundary of these boundaries.

1 A "–" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

2 In 1990, a census of vessels population of ships at sea was allocated to census tracts with a "99" prefix. An anchor symbol associated on the 1990 maps indicated a census of vessels tract. These maps show a very small MCD associated as a census tract with the census tract number shown near the area.

3 A "–" following a block number indicates that the block number is repeated elsewhere in the map.

Where international state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- <sup>1</sup> A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- <sup>2</sup> In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- <sup>3</sup> A "\*" following a block number indicates that the block number is repeated elsewhere in the block.

The diagram illustrates various types of boundaries and their associated features, organized into three columns:

- Highway**: Represented by a solid black line.
- Pipe/Power Line**: Represented by a dashed black line.
- Stream/Shoreline**: Represented by a blue wavy line.
- Secondary Road**: Represented by a solid black line with short perpendicular tick marks.
- Ridge/Physical Feature**: Represented by a solid black line with short perpendicular tick marks pointing in one direction.
- Intermittent Stream**: Represented by a blue wavy line with a dashed center.
- Jep Trail/Woody/Ferry**: Represented by a solid black line with short perpendicular tick marks pointing in one direction.
- Property/Tenure Line**: Represented by a solid black line with short perpendicular tick marks pointing in one direction.
- River**: Represented by a blue wavy line with a dashed center.
- Railroad**: Represented by a solid black line with short perpendicular tick marks pointing in one direction.
- Nonvisible Boundary**: Represented by a dashed black line.
- Glacier**: Represented by a blue wavy line with a dashed center.
- Military**: Represented by a blue dashed line with small blue squares.
- Inset**: Represented by a gray rectangle with a dashed border.
- Out Area**: Represented by a gray rectangle with a solid border.

Where international state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- <sup>1</sup> A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- <sup>2</sup> In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- <sup>3</sup> A "\*" following a block number indicates that the block number is repeated elsewhere in the block.
